### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with David Goren on 4/29/2005. The application has been amended as follows:

- The word, "amplifier" in line 5 of paragraph 43 of the specification is changed to the word, "diode".
- The reference number, "56" in line 12 of paragraph 48 of the specification is changed to reference number "54".

3. The following is an examiner's statement of reasons for allowance: The art of record (considered as a whole) neither anticipates nor renders obvious an eddy current monitoring system and a carrier to hold a substrate against a polishing pad wherein each component of the carrier with a portion within sensing distance of the monitoring system is nonconductive, and the sensing distance is at such a distance that a possible eddy current detected by the monitoring system is not discernable over the noise signal received during polishing in combination with the rest of the claimed limitations set forth in the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryan R Muller whose telephone number is (571) 272-4489. The examiner can normally be reached on Monday thru Thursday and second Fridays.
